THANKS *for joining us!*

Photo by Richard Isom, Vive Studio, Inc.

Dear Participants, Volunteers, Sponsors, and Friends:

We want to take a minute and thank you for helping make the 2017 St. George Marathon one of the best ever. It takes a huge effort by many people to bring to pass a successful Marathon like this. A full year of planning, weeks of preparation, all leading to a few hours of intense competition. Competition with others and especially an intense personal competition to achieve your goals with the race.

This years winners are Aaron D. Fletcher from Lindon, Utah at 2:14:44 (a new course record!) and Nicole D. Lyons from Meridian, Idaho at 2:41:15. Our Masters winners are Iain Hunter from Provo, Utah at 2:22:31 and Rosy Lee from Mountain Green, Utah at 2:42:25.

This year we added 90 family members to our Ten Year Club. We now have more than 1,444 members in our family that have ran the Marathon at least 10 years. Many of you have run for 15, 20, 30, and even 40 years! We do relish our relationship with each and every one of you.

We look forward to representing St. George with our winners in Ibigawa Japan. This relationship has been on going for 30 years now. It is a unique "sister marathon" partnership that helps strengthen our cultural and civic ties with each other.

Without the dedication and willingness of the St. George community and especially our staff we would not be able to hold the Marathon. This means a lot to our community to be able to hold one of the best marathons in the nation and showcase the natural beauty of the area, but also the warm and friendly personality of the community.

May this next year of running be your best, and that you can realize all of your personal goals.

Sincerely,

A handwritten signature in black ink that reads "Shane McAfee".

Shane McAfee
Marathon Director

A handwritten signature in black ink that reads "Kami Ellsworth".

Kami Ellsworth
Race Operations Manager

OVERALL MALE AARON FLETCHER

Aaron Fletcher grew up in Anchorage, Alaska and currently lives in Salt Lake City with his wife, Karen, and four-month-old daughter, Rosemary. He graduated from Brigham Young University in May with a degree in Civil Engineering and now works in the electrical utilities industry.

Despite his natural talent as a runner, Fletcher's first dream was to be a pro hockey player. But when his middle school track team needed someone to fill in for the one mile run, he volunteered. One race led to another, and Fletcher continued running through high school and became one of the best runners in Alaska after only a couple months of training. After graduating, he ran for BYU until the summer of 2016. "Over the years I have come to love everything about running—the community, the way it makes me feel, the competition, and the lifestyle."

This year Fletcher has been breaking records left and right! Although it was his first time competing in the St. George Marathon, and his first road marathon ever, his time of 2:14:45 broke Bryant K. Jensen's record of 2:15:56 held since 2013. In May he set the course record of the Timp Trial Marathon by 23 minutes. In August he set the course record of the Top of Utah Half Marathon by 23 seconds, also running the Elephant Rock Trail Marathon that same month. "It has been very satisfying to be so successful this year after years and years of hard training! It takes a lot of hard work and dedication to train while working full time and having a family." Fletcher further explains, "I owe a lot of my success in running to my wife! She sacrifices a lot to help me have time to run 100 miles a week while preparing for big races. Thanks Karen!"

The St. George Marathon has been on Fletcher's radar for a while; his parents have run it twice (including this year) and he has been running with Iain Hunter for years (a regular competitor in the marathon who won the Masters Division this year). "I knew I wanted to run St. George because it has a good combination of conditions to race a marathon for the first-time—nice, fast course, location close to home, and a fairly strong elite field. I had a good time running the race, and I enjoyed the atmosphere!"

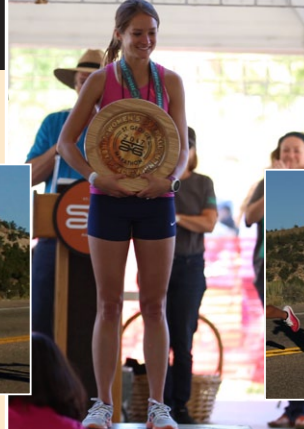

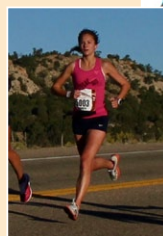

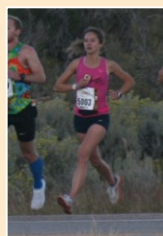

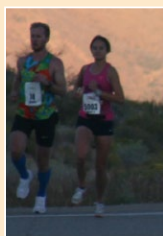

Photo Series by Vive Studio, Inc.

OVERALL FEMALE NICOLE LYONS

Nicole Lyons, a 5th grade teacher and piano tutor from Boise, Idaho, started racing in local fun runs when she was only about five years old. First participating in soccer, she decided to try out for track since her "runt of the pack" status won her frequent injuries. She quickly discovered that she loved to run. Although she was heavily involved in music, taking private lessons in both violin and piano and participating in choirs and orchestras, in 9th grade she began training for cross country and track. After graduation, she ran for Brigham Young University, primarily focusing on the 5k and 10k runs. "My coach always said, 'The longer the better.' He had foresight because once I graduated, I started racing marathons, and I have enjoyed doing so since."

Last year was Lyons's first time at St. George and she finished at 2:42:43. This year her time was 2:41:15, winning her first place overall. She believes that increasing her mileage during training was crucial in helping her finish strong this year. She had great support from both her coach and her husband, who both ran the marathon this year. Her husband became her "training buddy." "We'd wake up at 4:30/5:00 am, before school (as we are both teachers) in order to get our workouts done prior to school starting. Having him to push me, train with me, and encourage me was also a key component of my success this year."

Lyons and her husband are thrilled with the opportunity to go to Ibigawa Japan with the student delegation in November. "Honestly, it still feels rather surreal to me, but I know once that date comes, and I have put together my week of sub plans, the reality will settle in. I can't wait! My husband and I purchased a new camera to capture the memories, and we're both looking forward to sharing an incredible experience in Japan together."

Lyons loved her experience at the St. George Marathon and wants to thank those that help put it together every year. "I have had a fabulous experience, and I will definitely be back."

MASTERS MALE IAIN HUNTER

Iain Hunter was born in England and moved to San Jose, CA when he was nine. Near the end of his undergraduate degree in math with a coaching minor, he married Adrienne. During his Masters in Education in coaching he became interested in biomechanics and was hired as a professor at Brigham Young University in 2001. "Since my research is focused on the biomechanics of distance running and steeplechase, I've been able to satisfy my coaching desires by working closely with some of the top distance runners in the country." Hunter's research investigates "how to improve performance in distance running and steeplechase through changes in technique," such as the forces and positions runners use to obtain optimal performance. The Hunters now have four children, all of which are runners. Their eldest daughter, Kate, is currently on BYU's cross-country and track teams.

As a student at BYU, Hunter ran the 800m, and continued to do so after graduating. "I kept training because I loved to run and train hard. However, it wasn't until I was 35 that I got talked into trying a 15 mile run with Josh McAdams (a BYU steeplechase graduate that ran in two World Championships and one Olympic Games)." That run changed his view on long distance running. He continued training with McAdams and in 2007 ran his first St. George Marathon. He has since competed every year that he hasn't been injured.

Hunter has always loved running, but he especially enjoys the people he gets to run with. "In recent years, I've had the pleasure of training with a great training group in Provo. [. . .] These are quality people not just quality runners. Their examples have made me want to improve myself as a person rather than just a runner." He adds, "I've learned so much from them about how to live a good life, have a strong happy marriage, and what it means to compete for the sake of building up and improving people around us."

On his blog, Hunter wrote, "After the race, some friends that wore their predicted split times on a wristband asked me about mine. When I showed them my band, it had people's names for each mile instead of split times. I would think about a specific person for each mile for inspiration and motivation. I'm so thankful for all the family and friend support over the years."

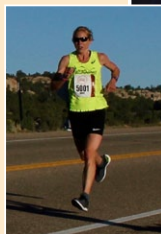

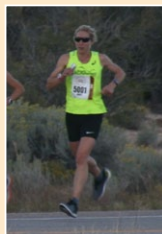

Photo Series by Vive Studio, Inc.

MASTERS FEMALE ROSY LEE

Rosy Lee started running cross-country her freshman year in high school, fall of 1990. She competed collegiately for the University of Oregon and Weber State University, but after the 2000 Olympic Marathon trials, she set racing aside and didn't start "successfully" racing again until 2011. "I say 'successfully,'" Lee explained, "because I convinced Ed Eystone to email me an 8-week training program that led me to my first St. George Marathon victory in 2011."

Now, living in Mountain Green, Utah with her husband Mark and four children, she spends much of her time coordinating schedules, driving carpools, and caring for her family but still makes time to run, usually in the mornings before her husband leaves for work. "I do enjoy running because it gives me a lot of satisfaction. I enjoy the health benefits of running and let's face it . . . some runs are much more enjoyable than others."

Running has become a bit of a family affair. Her husband Mark ran his first marathon this year. Two of her sons want to win the marathon someday and Anna, her four-year-old, likes to race and beat everyone home. "[She] reminds me of me when I was that age."

Lee is bringing her oldest son William, who is twelve, on the prize trip to Ibigawa, Japan with the student delegation this year. William is super excited for the trip. "He is the same age as some of the students going so I'm thrilled he will have this experience."

Saturday morning Lee enjoyed running with Silvia (the fourth-place finisher) and Nicole (the first-place overall finisher). "It's much better when there is a group together checking the miles off. The miles seemed to fly by much faster than usual." Around mile 21.25 she encouraged Nicole, who "had more in her legs," to go on ahead as Lee did her best to keep her "legs moving and avoid additional cramping." Her perseverance paid off as she came in first in the Masters Division, her fourth first place win at St. George.

The St. George Marathon is Lee's favorite marathon. "I like the staff, the water bottle check ins, and all the respect, support, and enthusiasm. [. . .] Everything about the race is magical. Even the weather cooperated and was perfect for racing."

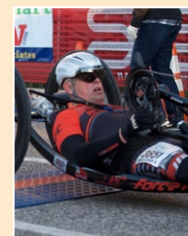

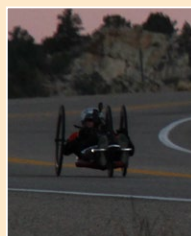

Photo Series by Vive Studio, Inc.

HANDCYCLE MALE CHRIS SPROULE

Chris Sproule, a native of Southern California who currently resides in Las Vegas, is the Chief Metropolitan Medical Response System Coordinator for Las Vegas Fire and Rescue. He has been competitively racing for four years and loves it. A lifetime athlete, Sproule played NCAA soccer at San Diego State. After his accident, he started handcycling recreationally. "I did my first marathon in 2013 and got third and found the inner athlete in me again. I haven't stopped riding, racing, and competing since." Sproule plans to continue racing and hopes to qualify for the 2020 Paralympics in Tokyo.

This was Sproule's fourth time competing as a hand cyclist in the St. George Marathon. He placed second in 2014 and 2015; coming in first place in 2016 and 2017. This year Sproule completed the course at 1:00:36, an improvement of three minutes from 2016's first place win at 1:03:15. "I am always pleased with improvements in my performance whether it's based on time, place, or experience I've gained."

To Sproule, everyone is a winner. "The race is what we have worked hard for, but we have already won before the race has even started. We won because of the time, effort, and dedication that we put into training for the marathon, the healthy lifestyle we lived, the role model we became, the goal we set out to accomplish and will accomplish. All of this makes us winners in life . . . and crossing the finish line is the icing on the cake."

Participating in the St. George Marathon was a memorable and unique experience to Sproule. A scene he particularly remembers is "flags blowing in the wind as people emerge from buses in the dark and make their way to the endless lines of fire pits as music plays over the loud speakers." To Sproule it's about enjoying the moment, and he wants to "thank the people of St. George for sharing their community with us and allowing the racers to be a part of what makes St. George such an amazing city."

HANDCYCLE FEMALE MELISSA “LISA” CHANDLER

Melissa [Lisa] Chandler has been athletic for most of her life and played football, rugby, and softball prior to her accident. When she fell off the roof at her job, she was just under 300 pounds. “The reason I started diving into racing and kept going was my need to lose weight. It was hard with my 5’4” short arms to lift my butt off surfaces, literally.” She started out with wheelchair basketball but found that her short stature didn’t help her much. She found the University of Utah’s adaptive sports program called TRAILS and started handcycling and cross-country skiing. “This started my path down a very active lifestyle and landed me in fencing, since my riding buddies encouraged me to pick up my first sword. That first weapon became my favorite and landed me at number 6 in the World back in 2016.”

Chandler now travels domestically and internationally as a member of the US fencing team. She will be travelling to Rome in November for the World Championships. One of the top female US fencers, Chandler holds three gold medals in all weapons from the 2017 USA Wheelchair Nationals. She also plays wheelchair basketball for the Utah Crush Women’s League.

On top of all this, she is a full-time student working towards a BA in Kinesiology/ Sports Medicine, with a goal to work with US Fencing at the Colorado Olympic Training Facility in Colorado Springs as a member of athlete development. And despite this crammed schedule, Chandler still finds time to compete in marathons. “I ride and race only a few times a year,” she explains, “It keeps me in shape and accountable for my health and fitness.”

This year was Chandler’s fourth time competing at the St. George Marathon, each time coming in first in the handcycling division. Chandler has loved coming back every year. “There are not very many races that support the gimp crowd, so I relish the opportunity to be part of it. I appreciate the support, encouragement, and enthusiasm that we receive before, during, and after the race. It sets the bar high and anyone who races St. George can agree that the experience spoils you.”

WHEELCHAIR MALE KACEY MCCALLISTER

"I love racing because it is a great way to just get out and feel the wind on your face and just have a really good run and it's a great competition," says Kacey McCallister, a motivational speaker from Monmouth, Oregon.

This year was McCallister's third time competing in the St. George Marathon, coming in first place all three years. "Winning Saint George is fun to do. But at the same time there's only two of us. I would love it if there was a lot more competition. I would even be okay with losing if we could get more wheelchair racers out there." He calls for even first-time wheelchair racers to come and race. "It is very fast, extremely fast for wheelchair racers. Even middling to lower wheelchair racers can make the qualifying time for Boston but even those who are running will find that it is a very fast course and extremely beautiful."

St. George is one of McCallister's favorite courses to compete on. "Compared to other races, St. George is one of the best. It is not as big as Boston nor does it have crowds lining the entire course, but the number of aid stations and the number of volunteers that can spend their time helping the runners is truly amazing." He says his favorite part of the course is Snow Canyon. "As a wheelchair racer you go screaming down it. But I really loved going off the hills too because it's a challenge."

McCallister is definitely not afraid of a challenge. This year he spent most of his time preparing for the Spartan races, which don't involve racing chairs but definitely keep your endurance up, requiring various physical feats including nets and wall climbs. Just prior to the St. George Marathon he had just finished a 13-mile Spartan Race which took him 10.5 hours to complete.

"If there was one thing I could tell everybody it's that nothing is impossible. These races are a milestone for many many people. The only thing that is keeping us from doing something amazing like a marathon is ourselves, so if you're reading this and haven't done a marathon just get out there and start training."
